

On the 12th of October, Miss Heath and I (Mrs Wilson) will be heading off to visit our twinned school in Ghana. We are looking forward to meeting and seeing the staff and children again. This will provide a great opportunity for us to find out how our partnership has enhanced the school and the children's lives.

We will be observing the teaching and learning also delivering whole class activities. We are looking forward to learning more about traditional Ghanaian culture and customs.

Whilst we are away we will hopefully Skype the year 5 children to share our experiences and provide an opportunity for the children of Gyetiase Primary school to ask questions about each other.

On our return we will share our all of our adventures via the school website and Newsletter for all of our stakeholders. We look forward to presenting our findings to the children on our return.
