

Safeguarding at Goldington Green Academy

Our Safeguarding Vision

Goldington Green Academy will establish an environment and maintain an ethos where children feel safe, secure and recognise when they don't feel safe and who they can tell.

Children at our school will belong to a culture of openness and trust, where children are encouraged to talk and are listened to if they have a concern.

At Goldington Green Academy we will develop resilience to radicalisation and all forms of grooming. We will ensure that children understand the dangers of social media and how this can affect their safety. Children will be equipped with the skills to recognise when they are in an unsafe situation and how to manage it in real life situations.

At Goldington Green Academy we will ensure all staff have up to date safeguarding training. The children's safety is paramount and safeguarding is EVERYONE'S responsibility.

We are ALL committed to ensuring children are SAFE and SECURE in today's world.
